- INSTRUCTIONS - This is a score event, where the object is to find as many of the controls within a specified time period. When you arrive, park in an orderly fashion, then proceed to the Registration point where you will be given a control card, and a start time. Complete both sections of the card and proceed to the pre start about ten minutes before your start time, here you will be given a map and a control description sheet. You can visit the controls in any order - the easier controls have low score values, the harder and more distant controls have high score values.
- Proceed to the start and on your start time go to the master maps to mark the controls onto your map. You may visit the controls in any order you wish. Each control will be indicated by a red and white board with a clipper attached. Mark your control card with the clipper in the box corresponding with the control number.
- Hand your control cards in at the finish where your time will be recorded.
