East Anglian Score Event : 5th November 1972

Rendlesham Forest : Aldewood : Suffolk

Enemy action against our shipping during the first World War highlighted our shortage of timber. Apparently part of the remedy for this situation was the planting of Tangham Farm as a forest of Corsican pines in 1920. Much, no doubt, has happened in the forest since then; and today it took a major step in its use as a recreational area when it staged its first authentic British Federation Orienteering Event.

At least 12 experienced orienteers will be wondering why it was possible to collect all 20 controls within the time limit of 100 minutes, when a time limit of 1 hour would have been better for them. Given that this Event was restricted to one Course, and that it was expected to attract more competitors of little experience than badge holders; we decided to give this greater sector of the entry more time to be in the forest making decisions and orientating themselves.

A muggy, warm for November day, ensured that the sweat oozed freely as competitors worked through the acrid bracken and fungi undergrowth, and it was good to hear the laughter and see the radiant complex ions clustered around the finish. Thanks, as always, are due to many people. Personnel of the Forestry Commission have been most helpful. Wives of .E.A.O.A. personnel were magnificent. Richard Raynsford and other officials of the Suffolk Orienteering Club made the day possible and everybody named hereafter contributed. Thank you.

See you at Norfolk and Essex in December and January respectively.

(Clacton on Sea 25709)

Derek & Jessie Keeble
