The 2017 Suffolk Schools Orienteering Championships was held at the Thorpe Woodlands Adventure centre on Thursday 25th May 2017. Six schools had qualified for the final in regional heats. Each school brought two pairs of orienteers to the final

The final was a score event run in pairs. There were twenty controls and the pairs had to find as many controls as possible within the twenty minutes. If pairs went over the 20 minute time limit, the number of controls at twenty minutes has been awarded and the time has been set at twenty minutes. Trophies were presented for the first three individual pairs and a team award for the school with the highest combined number of controls of their two pairs.
